

G·PLUS

ELECTRIC DUAL ACTION POLISHING MACHINE.

PRODUCT INFORMATION

EUROPEAN 2-PIN MODEL EU plug (type F)	CODE GPT202	QTY. 1
UK 3-PIN MODEL UK plug (type G)	GPT203	1

PRODUCT DESCRIPTION

The G Plus Dual Action 220-240V Polishing Machine has been developed to Farécla's own specifications.

The slow start motor helps reduce product splash while the speed stabilisation offers the operator a constant speed output. The ergonomically engineered handle fits snugly into the grip of the operator and it is an exceptionally well-balanced machine thanks to its precision, CNC-machined counterweight that minimizes vibration and the associated user fatigue. The 15mm orbit strikes the balance between speed and vibration. A larger throw than many orbital polishers gives faster paint correction, while having far less vibration than some larger throw polishers.

The G3 Pro applicator pads and G3 Pro engineered abrasive compounds have been developed in conjunction with the G Plus Dual Action Polisher for optimum performance.

The thumb-operated speed dial gives the user variable speed control from 2000 - 4500 Oscillations per Minute (OPM).
Generous 5m power cord.

SUPPLIED WITH FREE G3 PRO PADS

KEY BENEFITS

15 MM THROW	Balancing speed of paint correction with machine vibration
PRECISION ENGINEERED COUNTERWEIGHT	Minimises vibration and the associated user fatigue
LIGHTWEIGHT	Only 2.6kg, reducing muscle fatigue
SPEED INDICATOR	Lets you polish at the recommended OPM for optimal performance
BACK PLATE INCLUDED	Multi-hole 123 mm back plate promotes air flow to help maintain a low polishing temperature
